## Dear colleagues

We are pleased to invite you to this year's Scientific Sessions for Cardiovascular Nurses and Allied Professionals. It will take place in the OLMA Congress Center in St. Gallen, on Thursday, 16. June 2022 within the Annual Congress of the Swiss Society of Cardiology (SSC) and the Swiss Society of Cardio-Thoracic Surgery. Further information and the program is found on the SSC website:

<https://www.cardio-congress.ch/sgk2022.html>

We hope to encourage and inspire you with this year's Nursing Symposia offering diverse 'State of the Art' topics presented by renown experts in the respective fields.

The first session explores the meaning of Shared/Collaborative Decision Making within our daily practice. This will be followed by 'transferring research into practice', the latest information on digital consultations and monitoring in Rhythmology / Pacemakers and for minimally invasive therapies, and introducing the 2021 Heart Failure Guidelines. Last but not least, we are very excited to hear the clinical case presentations in the session 'Case Reports'.

### Early registration special offer is available until 19. April 2022.

All members of the Working Group for Cardiovascular Nurses and Allied Professionals/Swiss Association for Nursing Science will receive:

1-Day pass for the Nursing Sessions 16.6.2022: CHF 60.-

3-Day pass for the entire congress 15-17.6 2022: CHF 120.-, including a 1<sup>st</sup> class return train ticket.

Please register now, and take advantage of the special offer.

Register here: <https://www.cardio-congress.ch/sgk2022/take-part.html>

We are really looking forward to finally being able to welcome you in person in St Gallen, and for an exciting and interesting exchange of ideas and experiences.
