

## Newsletter January 2021

Dear colleagues,

As you all know, the AEPC annual meeting was originally planned for May 2020 but had to be cancelled due to the Covid-19 pandemic. As it remains hard to predict the future course of the pandemic, the AEPC Council decided to organize **a completely virtual meeting in 2021**. Over the past year, where the pandemic challenged our traditional ways of working, web-based education and meetings have been set up as a substitute for traditional face to face meetings.

We are proud to invite you to an exciting virtual congress with presentations, abstract and poster sessions and a virtual exhibition. Although we would have looked so much forward to seeing you all in real life, let's join in an effort to present and discuss all the scientific work being done in the field of pediatric and adult cardiology. The programme below will be confirmed and updated as soon as possible.

We are very pleased to inform you that our working group on Nursing and Allied Health Professionals will have our **first pre-conference Nursing Education Day on Tuesday May 25<sup>th</sup>, 2021**. The overall topic of this day will be **"Care for patients with single ventricle from a life-cycle perspective"**. During this training day, several topics will be discussed, starting with the definition and the physiology, prenatal care aspects, challenges for the patients and their family towards long-term management by multidisciplinary teams.

Registration for this pre-conference Education Day will be **free of charge!**

Go visit the AEPC conference webpage <https://www.aepc2021.org> for further information and check out the programme. If you become a member of our working group, you will profit from a significant price reduction and our widespread activities such as networking, exchanging ideas in the field of research and practice with colleagues and the annual registration to journal "Cardiology in the Young".

Please contact us for further questions.

**Looking forward to our first virtual congress and best wishes for the year 2021!**

Best wishes,

Eva Goossens, Ewa-Lena Bratt, Lynda Shaughnessy & Gaby Stoffel

Council of the Working Group Nursing and Allied Health Professionals

## **Nursing and Allied Health Professionals Sessions:**

### **Wednesday 26 May 2021 8.30-10.00**
